The Venue

Main Space

Our main wedding reception space includes the conservatory, bar, and garden — giving you the best of both indoor and outdoor celebration.

It's perfect for everything from welcome drinks and a sit-down meal, to a lively evening party with music, dancing and cocktails.

Capacity: Up to 85 seated guests, banquet style or 120 guests (without external covering)

Optional Add-On: Our Additional Function Room (up to 35 guests)

For couples who want a little extra space (and extra fun), we now offer an additional private function room that flows into the main area whilst being separate, available as an optional add-on.

It comes with its own bar and is ideal as:

- a relaxed breakout space for guests
- a place for games
- a Photo Booth set-up
- anything else you can imagine

Livestream Your Ceremony

Although we are not licensed to host wedding ceremonies, many couples choose to have a small legal ceremony at the registry office or church and then celebrate with us.

If you'd like to include more guests in that special moment, you can livestream your ceremony onto our large screen, so friends and family can watch together before the reception begins or recreate the ceremony.

Make It Yours

If there's anything bespoke you'd like to include, just let us know. We're happy to tailor menus, timings, layouts and ideas to suit the kind of wedding you want — whether it's laid-back and casual or full party-mode from the first drink to the last song. You are welcome to provide your own playlist, band or DJ. If you'd like a DJ or live band, the additional function room must be booked.
